

# BevermannConsulting assisted Fellowmind and its investor FSN Capital V\* in the acquisition of DAXIOMATIC

**BevermannConsulting** has supported and advised Fellowmind in connection with the acquisition of the Microsoft partner DAXIOMATIC. The leading Microsoft Dynamics 365 partner in Denmark has joined Fellowmind, Europe's leading platform for Microsoft Business Applications and Modern Workplace. Daxiomatic is the seventh Microsoft partner to merge in this European platform. In close cooperation with Fellowmind, **BevermannConsulting** has played a significant role in the introduction of the company. After an extensive market scan, a short list trajectory followed and introduction meetings were held. **BevermannConsulting** facilitated the further process.

"**BevermannConsulting** has vast knowledge of our market." Says Emiel Putman, CEO at Fellowmind. "The team has a wide network of relevant people in the European region. We cooperated as a team to scan the Danish market and approach the right acquisition candidates that fit our company culture and ambition." Niels Kodal, Chairman at Daxiomatic added "Søren Berg from **BevermannConsulting** have been part of the process from the early beginning before meeting Fellowmind the first time. And have been calling with appropriate intervals to discuss how things are going. From the very beginning, and all through the process the dialogues with Søren have been open and trust-building, which comes natural with Søren's down-to-earth and natural approach. Søren is really good at reading people. Both in terms of the words being said directly and the words being said between the lines. It is clear to see he has a focus on the soft values and he keeps the ball rolling by removing obstacles and ensuring aligned communication between the parties".

Sven Bevermann, CEO at **BevermannConsulting** adds: "We have been working with the Fellowmind team since 2017 as their M&A Consultant to support their International growth ambitions. We are proud that we have contributed to the acquisition of Daxiomatic and were able to team up with Wave Corporate Finance, FSN Capital V\* and the team of Fellowmind."

#### About Daxiomatic

Back in 2010 Daxiomatic was founded as a counter reaction to a greedy ERP market which at the time was more about quantity than quality. The founders were embarrassed to be part of an industry where businesses fell prey to vendors who were only concerned with making a profit. Our commitment to reintroduce worthiness in the industry and provide real and tangible value for our clients is what drives our purpose: To make all Dynamics 365 Finance and Operations clients satisfied. Daxiomatic measure accomplishments in the success rate of projects. Economy must be sustainable, but the true currency is client value.
